

EGYLIGHT

Company Profile

About Us

EgyLight was established and started its business in the past years by assembling the Skills and succeeded over the past years in becoming one of the leading companies in the energy sector in the Egyptian market and covering its operations in many Arab and international markets.

EgyLight is among the leading manufacturers of lighting in Egypt and the Middle East. With its unique Die cast abilities and high quality Components that offer our partners and clients more than just a lighting fixture. we offer you a design tool (LUX Study), Technical and Financial offers, to achieve best & affordable solutions for your project with professional & comfortable lighting scenes that include indoor and outdoor fixtures: panel lights, spot lights, down lights and more.

EgyLight is the sole agent of EVEO in Arab markets.

EVEO LED is located in China, which is world famous for its lighting products. The company was founded in 2009 with the aim of becoming a respected global lighting brand and a leader in the world. The company, which is internationally oriented, had more than 500 employees. The company's business activities have been focusing on light and hence on quality of products for over 6 years. Our main products are lighting fixtures and accessories machined from high- grade die casting aluminum and have been in existence for the past 6 years. After 6 years eveo led now is one of the leading lighting manufacturers in the Arab market.

Vision

EgyLight aims to enhance the awareness of lighting and its practical applications through leading products. It also aims to expand in other Electrical energy fields.

Mission

EgyLight is an industrial and trading company which promises to achieve and provide integrated lighting solutions with its products and applications to provide the most affordable high quality lighting fixtures.

It also makes significant efforts to develop products and applications for the benefit of lighting consultants and the final consumer in Egypt and the Arab region.
